faces OF THE **FUTURE**

We are looking for the most impressive young professionals within the industry!

Our Faces of the Future initiative being launched during youth month is quite serendipitous indeed!

This, we feel, is the perfect time to launch our new campaign, and, seeing as though we too are an office that fits the 'youth' criteria, we would like to champion a youth movement within the green industry.

Faces of the Future is designed to be a way of recognising and celebrating the work that young people across the outdoor design, build and maintenance sectors are putting into their budding careers. This includes horticulture as well as any green industry profession! Entering Faces of The Future is a great way to gain recognition for your own work or the work of someone you know.

It is a platform to establish yourself within the industry and to create a space for other professionals, both young and old to gain insight into expertise within your chosen fields.

The rules are quite simple, you can nominate yourself or a colleague/apprentice if the nominee was aged 30 or under on the 1st of January 2018 and currently works within the horticulture, arboriculture, garden design or landscape sector.

All we ask is that you email media@paperplane-publications.co.za to receive the application form. Winners will be announced in an outlined section of the October issue of Pro Landscaper to be sent to all of our subscribers, posted online and publicly recognised at our FutureScape Africa Trade Show, held on the 1st of November 2018.

It really is a fantastic initiative and we are sure it will give way to some extraordinary entries.

Sound like something you are interested in?

email media@paperplane-publications.co.za for your application form or visit www.prolandscaper.co.za and navigate to our Faces of the Future Tab.
